ABOUT

Java developer with **5+ years** of commercial experience, working in teams ranging from 2 to 40 members, both remotely and on-site. Have 2 years of **junior-leading** experience. Built full cycle of development: from gathering product owner requirements to establishing fully automated release process with high test coverage, detailed analytics and CI/CD. Expert in functional reactive programming. Passionate about the evolution of ML/AI, my hobby is **mentoring** others. My hobby is building a personal brand by teaching Java at conferences and publishing articles on a [blog](#).
